# OPS® VANDAL PROOF PAPER TOWEL DISPENSERS

INDESTRUCTIBLE • LIGATION-RESISTANT • SECURELY MOUNTED  
SECURELY LOCKED • PORTION CONTROLLED

## PORTION CONTROLLED

- **ONLY 1 SHEET CAN BE PULLED AT A TIME!**
- This important feature does not limit the amount of paper a person needs to get the job done, but does slow the process down so that the next person will have hand towels.
- All other Paper Towel Dispensers are designed to allow a person to grab 12 to 20 towels at a time due to the large slot opening. This system encourages waste and increases trash removal.
- OPS towels are the ideal size, which helps reduce waste.
- Uses the same keys as other OPS® dispensers.

## OPS® PAPER TOWELS

- The paper towel is designed to match the size of an adult's hands, resulting in fewer used and partially used paper towels ending up in trash receptacles.
- 250 sheets per pack, 8000 sheets per case, double to quadruple the number of paper towels per case than our competitors.
- For use only in OPS® paper towel dispensers.

## PORTION CONTROLLED

- **ONLY 1 SHEET CAN BE PULLED AT A TIME!**
- This important feature does not limit the amount of paper a person needs to get the job done, but does slow the process down so that the next person will have toilet tissue
- Roll tissue dispensers allow an entire roll to be pulled in less than 30 seconds. That includes Jumbo Roll Tissue
- Uses the same keys as other OPS® dispensers
- 800 tissue sheet capacity
- Dual dispensing slots provide a visual indication of low paper

**OPS® TOILET TISSUE DISPENSER**

# WHAT YOU SHOULD KNOW?

## SOAP DISPENSER POKING!

Poking is the insertion of a dirty needle into either a soap cartridge, bulk soap reservoir, or toilet paper supply to clean the syringe and not cause the syringe to bend or break.

## WHAT IS “POKING”?

Poking is the term to describe what IV drug users do to clean blood-contaminated syringes to use again or share.

## TOILET TISSUE DISPENSER POKING!

Poking of toilet paper may not harm the syringe but will contaminate the paper roll with blood-borne pathogens. Then that paper is used on sensitive and vulnerable parts of the body by unsuspecting people who now are at risk of viral or bacterial disease transmission.

## UNLIKE ALL OTHER DISPENSERS, CONTAMINATION WILL NOT HAPPEN WITH OPS® VANDAL-PROOF DISPENSERS!
